

COMMENT FORM

Public Scoping Meetings

We need your input. Please take a few minutes to provide your comments or questions for the USDA RUS Federal Environmental Impact Statement process and return your completed form today or mail by June 29, 2009. Your comments help in the planning and implementation of the project. **Thank you.**

Completing this form will automatically add you to our mailing list. If you prefer to not be on the mailing list, please check the box below.

☐ I do not wish to be on the project mailing list

Which meeting did you attend? Plainview June 16 2009

Please check the following issues that are important to you for transmission line siting.

- ☒ Project Purpose and Need
- ☒ Visual / Aesthetic resources
- ☒ Proximity to residences
- ☒ Land use (agriculture, residential, recreation)
- ☒ Water resources (floodplains, river crossings)
- ☒ Biological resources (wildlife habitat, raptors)
- ☒ Historic and cultural sites
- ☒ Radio or television interference
- ☒ Noise
- ☒ Health and safety
- ☐ Other: _____

*most important
for me to understand
why it's needed --
then the other
stuff needs to
be considered*

What additional key issues should be addressed when assessing the potential impacts of this project?

I-012-001 std city Rd 11 south of Viola Rd + North of city 9
is proposed/potential route for East Circle
bypass around Rochester -- need to
consider this when thinking of placement
(304 lanes)

Hampton • Rochester • La Crosse 345 kV Transmission Project

I-012-001

Your comment has been noted. The criteria used to route the transmission line is described in the Macro Corridor Study which is available on the RUS website at:
<http://www.usda.gov/rus/water/ees/eis.htm>. These criteria and routing process will be addressed in the Draft Environmental Impact Statement. The project is still in the development and planning stages and the utilities have not yet permitted a route for the transmission line.

The Draft Environmental Impact Statement will be available on the RUS website at: <http://www.usda.gov/rus/water/ees/eis.htm>. Comments on the Draft Environmental Impact Statement will be solicited after its publication.

I-012-002

Your comment has been noted. Please refer to comment response I-012-001.

If you own property in one of the proposed corridors, please indicate all the existing uses of your property below:

- ☐ Agriculture ☒ Residential ☐ Conservation Easement
☐ Commercial ☐ Industrial ☐ Other: _____

Please describe any special uses or circumstances on your property that should be considered when assessing the Project. Please indicate the location of your property.

I-012-002

see note about East bypass
around Rochester along Cty 11 -
suggest you need to move that stretch
to the east of the reservoir

In your opinion, what are the most sensitive resources (biological, cultural, recreational, ect.) in the Project area and why?

I-012-003

In your opinion, was the project description, purpose, and need for the project adequately explained? If not, what additional information is needed?

I still don't understand the need. Do assumptions still seem valid? So much has changed, and there is more change coming relative to our energy usage patterns + ~~the~~ power generation options

Please tell us how to reach you.

CONTACT INFORMATION

Name: April Horne

Representing (Optional):

Mailing Address: 2099 NE Silver Creek Ct

City: Rochester State: MN Zip Code: 55906

Daytime Phone (Optional): 507-266-9205

Public participation for the Federal, Minnesota, and Wisconsin permitting processes will be ongoing for the Hampton- Rochester- La Crosse 345 kV Transmission Project. If you sign up for the mailing list, you will be notified when opportunities to participate are being planned.

Please plan to continue your involvement in the process and provide your comments. We appreciate your input.

I-012-003

Your comment has been noted. The Draft Environmental Impact Statement will describe, in detail, project purpose and need. The justification document which has been accepted by the RUS is the Alternative Evaluation study which is available at:
<http://www.usda.gov/rus/water/ees/eis.htm>.
